

Spring 2010

Zhou's Angels

You Can Complete Your Adoption in 9 to 12 Months from Start to Finish!

Waiting children in China are referred to you quickly (2-4 months) after you receive your log in date. A healthy child, who is over the age of six years is generally classified as a waiting child / special need due to his / her age. Occasionally healthy 4-5 year old boys are waiting. You can choose a child that fits your family and your expectations.

Hale-Mitchell

Our son's adoption cannot be told without starting with his sister's adoption. On November 2, 2006 I received a call from EAC that we had a referral of a little girl. I called my husband Mark who was in Illinois looking at our future home. In December of 2006 on a Beijing tour bus, my husband and I talked about our next adoption. After our return home with Mary, we were in contact with EAC regarding the special needs program. After some prayerful consideration, we realized that we would be open to either a girl or a boy. We researched different special needs and told EAC what conditions we felt we could handle.

Karla called with a referral. I read his information: boy, complete cleft lip on left side, incomplete cleft on right lip, and grade 3 complete cleft palate, no obvious hearing loss, born November 2, 2006. Yes, the day we got a call about Mary, the day we found the house we wanted; this was the day our son was born. Do you need a greater sign then that! After his medical was evaluated, we accepted. In an update, we learned that his lip had been repaired, and he was scheduled to have his palate repaired in a few months. The update made the wait for travel easier.

It's hard to put into words the care we got in China from Mr. Zhou. RJ loved being around him. Zhou made sure there was enough down time to facilitate bonding and he even took Mark to the Fish Markets...
